Identify buys that fail to perform

Export plans for action

Discover the buys that drive the best results

+ Improve the Buy

Predict analyzes historical response data to identify your best TV media-buy opportunities – including days, dayparts, networks, programs, genres, creatives and number of spots.

+ Optimize Spend

An easy-to-use workflow lets you set spend levels and factor in business rules, delivering ready-to-action recommendations to make the most out of your TV budget – even if it changes over time.

+ Increase Response

Predict’s data-backed insights inform media plans that will drive increased response and ensure the efficacy of every TV dollar spent.
